PROFESSIONAL SUMMARY

As a Full Stack Developer Intern at Softroniics, I've developed and maintained a MERN stack web application, focusing on responsive UI design with React.js and CSS frameworks. I'm proficient in creating efficient RESTful APIs using Node.js and Express.js, and I have experience working with databases like MongoDB and MySQL. I'm well-versed in version control using Git and collaborating with team members on GitHub. Prior to my internship, I gained valuable experience as a Junior Engineer at Intelizign, specializing in modeling and designing wiring harnesses for trucks using Catia V5. I'm dedicated to continuous learning, meeting project requirements, and delivering high-quality results, making me a valuable asset to any team.
